Objective

Dedicated and experienced Industrial Automation Engineer with 5+ years of hands-on experience in PLC, SCADA, and drive systems, seeking an opportunity to utilize my skills in commissioning, troubleshooting, and system integration for organizational success. Keenly interested in Industry 4.0 technologies, including IoT, Edge computing, and AI integration, with a focus on IT-OT integration to develop smarter, more connected, and data-driven industrial systems.

Experience

- Maple Auto Motion Pvt. Ltd** Feb-2024 - Present
Service and Industrial Automation Engineer
 - Provided technical support and troubleshooting for Siemens industrial automation systems.
 - Worked extensively at Bokaro Steel Plant (SAIL, India), handling critical upgrade and maintenance activities.
 - Executed hardware, PLC, and HMI upgrades, including WinCC Flexible systems.
 - Commissioned and maintained Siemens drives (S120, G120) and PLCs (S71500, S7-1200, S7-400h, S7-300).
 - Performed commissioning of Siemens drive systems on cranes, ensuring reliable and efficient operation.
 - Diagnosed system faults and implemented solutions to minimize downtime in a heavy industrial environment.
 - Supported modernization and performance improvement of automation systems across multiple applications.
 - Major Clients: Bokaro Steel Plant (SAIL), Vedanta Electrosteel, Marshal Steel (Hazaribagh), Dalmia Cement (Balidih), GMR Kamalanga Energy Ltd., Koderma Thermal Power Plant, Sreeram Exports Pvt. Ltd.
- Arka Automation Pvt. Ltd** Feb-2022 - Feb-2024
Industrial Automation Engineer
 - Provided on-site troubleshooting and technical support for major clients including CEAT Tyres (Halol, Vadodara), Sun Pharma, Biocon (Bangalore), and Sabita Engineering (Kolkata).
 - Hands-on experience with Siemens systems including S7-1500, S7-1200, S7-200 SMART PLCs, and drives such as V90, V20, S120, and G120.
 - Worked with WinCC HMI platforms (Basic, Comfort, and Unified) for monitoring and control applications.
 - Experienced in Beckhoff IPCs and integration of various industrial drives and control systems.
 - Designed, programmed, and commissioned PLC-based automation systems for multiple machines including VFFS packaging machines, sterilization tunnel machines, FFU units, and other special-purpose machines (SPM).
 - Managed complete project lifecycle from programming and commissioning to troubleshooting, maintenance, and performance optimization.
 - Ensured minimal downtime and reliable operation through effective fault diagnosis and system improvements.
- ZF CVCS India Limited-Jamshedpur** Feb-2021 - Feb-2022
Maintenance Technician Engineer
 - Performed preventive and breakdown maintenance of CNC and assembly machines, covering both mechanical and electrical systems.
 - Diagnosed and resolved machine faults to minimize downtime and ensure smooth production operations.
 - Gained hands-on experience in PLC systems, including basic programming and PLC panel wiring.
 - Supported automation systems in assembly lines and developed a foundational understanding of industrial control processes.
 - Managed utility systems including power distribution and air compressors, ensuring efficient operation and reliability.

Certifications

- SINUMERIK 828D – Commissioning & Maintenance
- WinCC Unified – Essentials (Unified Academy)
- SIMATIC S7-400 – Advanced Programming (SIMATIC Manager)
- SINAMICS S120 – Basic & Advanced Drive Training

Skills

- **Programming**
 - LAD, FBD, SCL

PLC Platforms

- Siemens: LOGO!, S7-200 SMART, S7-1200, S7-1500, S7-300, S7-400H
- Mitsubishi: FX5U | Omron: CP1E

SCADA / HMI

- WinCC (Flexible, Basic, Comfort, Unified)
- Mitsubishi HMI, Veichi HMI

Drives & Motion

- Siemens SINAMICS (S120, G120, V90, V20) – Commissioning & Troubleshooting

Industrial Communication

- Profibus, Profinet, Modbus, Ethernet/IP

Software & Tools

- TIA Portal, SIMATIC Manager (Step 7), SINAMICS Starter
- GX Works, AutoCAD (Basic), VMware / VirtualBox

Core Skills

- Commissioning, Troubleshooting, System Integration, Industrial Networking, Preventive Maintenance

Projects

- VFFS packaging machines
- Sterilization tunnel systems
- FFU (Fan Filter Unit) systems
- Special-purpose machines (SPM)
- Cement plant automation systems
- Siemens drive projects (S120, G120, 6RA80)
- Crane and coil packaging applications
- Lathe machine automation

Education

Course / Degree	School / University	Grade / Score	Year
Diploma in Electronics and Communication	Government Polytechnic, Kharsawan	72%	2020

Languages

- Hindi
- English

Personal Details

- Date of Birth : 08/07/1998
- Nationality : Indian
- Passport : AN431155
- Gender : Male
